To Whom It May Concern:

Re: Allstar Mechanical Ltd.

Dear Sir or Madam::

Mierau Contractors Ltd. was the Construction Manager on the "Watermark at Southpointe", a \$20,000,000 residential retail complex in South Surrey BC. The project consists of a four storey complex plus underground parkade. The first level is non combustible construction and the upper three floors are wood frame residential. It is a mid / upper end project. Allstar Mechanical was selected to be the Mechanical Contractor on this project. The value of the Mechanical Contract was approximately \$2,200,000.

From the very beginning they proved to be a quality Mechanical trade. The quality of workmanship completely met the requirements of the documents and our expectations. They are cooperative, flexible, and work as part of the team. Pricing is fair and they demonstrated accountability.

We highly recommend them as a Mechanical Contractor, and Mierau Contractors will not hesitate to use them on future projects when the opportunity arises.

If you have any questions about this contractor, please feel free to call this writer.

Yours truly,

MIERAU CONTRACTORS LTD.

Doug Margison, C.E.C., G.S.C.
Senior Project Manager
